43” PCAP Touch Screen with Dual OS
USB Ports
Attach third party peripherals to the internal PC via the screen's two USB ports.

Dual OS
The integrated PC has both Windows and Android operating systems installed. Easily switch between the two for the most versatile touch screen solution on the market.

Commercial Grade
Designed for use in commercial applications this screen can run 24/7. No external buttons or controls to avoid tampering.

10-Point PCAP Touch Technology
Using the most responsive and sensitive commercial touch technology available. Not affected by dust or debris on the screen surface.

Portrait/Landscape Orientation
The screen can be used in either a landscape or portrait orientation depending on your requirement.

Smooth Touch Gestures
Perform smoother touch gestures with our specially treated glass which lowers the surface tension and friction of the touch surface. It is also more scratch resistant and durable than ever, making it ideal for commercial use.

LED Backlight
Improves brightness and contrast as well as improving their lifespan and reducing their power consumption. Unlike other forms of light this technology is mercury free; making it even more eco-friendly. The panel and backlight have a lifespan in excess of 50,000 hours.

Overview

IPS Panel
With $450 \text{cd/m}^2$ the IPS panel shines brighter than any domestic television while delivering superior image quality and colour depth at $178^\circ$ ultra wide viewing angle in both landscape and portrait orientations.

Audio
The screen has two integrated speakers but also has an audio out port for connecting headphones or external speakers.

USB Ports
Attach third party peripherals to the internal PC via the screen's two USB ports.

Built in Wi-Fi
As well as having an Ethernet port you can wirelessly connect to the internet thanks to the built in Wi-Fi.

Connectivity
If you don’t want to use the screen’s integrated PC you can attach your own device, such as a media player or high performance PC, using the HDMI or VGA inputs.

Giant Tablet Styling
Designed to resemble a giant smartphone or tablet. The sleek and sexy look is achieved with a striking aluminium surround and stunning IPX1 rated edge-to-edge glass.

Commercial Grade
Designed for use in commercial applications this screen can run 24/7. No external buttons or controls to avoid tampering.

Anti Fingerprint Glass
Thanks to a special plasma treatment the tempered glass front is more resistant to oil/ water residue left by fingerprint marks. Unlike other Touch Screens the glass is not etched, vastly improving the optical clarity.
"A ground breaking revolution in touch screen technology"

**Dual OS**
Experience the most versatile commercial touch screen on the market. With both Android and Windows operating systems installed on the integrated PC it cannot be beaten on flexibility. Easily switch from your Windows desktop to the Android apps; this screen has it all in one convenient package. A Windows license will need to be purchased separately.

**PCAP Touch**
State of the art Projected Capacitive interactive technology offers the most responsive and sensitive touch experience available. Designed for commercial applications, PCAP touch technology works by fixing a sensor grid between a layer of cover glass and the LCD panel, when a finger touches the glass the grid detects the coordinates of the touch point. Unlike other touch technologies PCAP is not affected by dust or debris on the screen surface, allows for up to 10 touch points and offers superior optical quality.

**Giant Tablet**
These displays could be considered the largest commercial tablet on the market; but they are so much more. With a striking aluminium bezel and a sleek and sexy design, these displays always manage to catch the eye. Built with a strong tempered edge to edge glass front and a wide viewing angle, these commercial grade tablets are hard to miss and certainly stand out from the crowd.

**Surface Plasma Treatment**
Not only is the front glass face tempered, which makes it more durable and suitable for public use, but it is also plasma treated to give it an oleophobic coating. What this means is that it is more resistant to surface oil and moisture which reduces the residue left my fingerprints. It also lowers the surface tension and friction, making touch gestures much smoother, improving the overall tactile experience for the user. All this is achieved without having an etched finish which means that the overall optical clarity is maintained to the maximum level.
Having up to 10 touch points allows for a wider variety of applications than ever before. This kind of functionality allows you to manipulate images, zoom in and out as well as perform many other touch gestures; much like you would with a domestic tablet. It also allows for multiple users interacting with the screen at one time.

LED Backlight

The LED backlight used is not only eco-friendly but also ensures the display has enhanced brightness and contrast. This technology increases the lifespan and reduces the power consumption by around 30%. This form of light technology is mercury free; safeguarding this screen’s eco friendliness.

24/7 Usage

Built with commercial grade panel and components these displays are designed to run 24/7 in constant use; unlike domestic tablets. The panel also has a lifespan of over 50,000 hours of continuous use. They can also be used in landscape or portrait orientation.

Attach External Devices

Although the screens have an integrated PC with two operating systems, there is also a possibility to attach external devices if required. Simply connect your device to the screen, via VGA or HDMI (for the video signal) and USB (for the touch functionality). The screen will then serve as your computer monitor and the touch functionality controls the cursor, essentially acting as your mouse.
Panel
- Display Size: 43 Inch
- Resolution: 1920x1080
- Display Area (mm): 942.5x530.5
- Aspect Ratio: 16:9
- Pixel Pitch (mm): 0.495x0.495
- Brightness (cd/m2): 450
- Colour: 16.7M
- Viewing Angle: 178°
- Contrast Ratio: 5000:1

Touch
- Touch Technology: Projected Capacitive
- Touch Points: 10

Audio
- Speaker Type: 2W, 5Ω (x2)
- Glass Hardness: 7H minimum

AV Inputs/Outputs
- Inputs (when used as monitor): HDMI, VGA, RS-232
- Audio Input (when used as monitor): Audio Socket (3.5mm)
- Audio Output (internal PC): Audio Socket (3.5mm)

Power
- Power Consumption (W): 65
- Input Voltage: AC110~240V (50Hz~60Hz)

Mechanical
- Unit Size (WxHxD mm): 1048.9x636.9x64.7
- VESA Holes (mm): 400x200
- Net Weight (Kg): 24.1
- Gross Weight (Kg): 28.4
- Package Size: 1188x772x220

Environmental
- Operating Temperature: 0°C to 50°C
- Storage Temperature: -30°C to 60°C
- Operating Humidity: 10% to 80%
- Storage Humidity: 5% to 95%

Computer
- CPU: Intel® Atom™ (Quad-core) x5-Z8350 Processor (2M Cache, up to 1.92 GHz)
- RAM: 4GB (DDR3L-RS 1600MHz)
- Instruction Set: 64-bit
- Graphic Engine: Intel® HD Graphics 400 (8th Gen, Supports DirectX11.2, OpenGL4.4 and OpenCL 2.0)
- Hard Drive/Internal Memory (eMMC): 64GB
- USB: 2 x USB 2.0
- LAN: 10/100/1000 Ethernet
- Wi-Fi: 802.11b/g/n
- OS: Android 5.1.1, Windows® 8 /8.1 64-bit, Windows® 10 64-bit, Windows 10 IoT Enterprise 64bit (licence purchased separately)
- Other: No accessible buttons or controls

Accessories
- Included: Remote Control, User Manual, Power Cable, USB to USB Cable, Wi-Fi Aerial
- Optional: Special Wall Mount, Floor Stand/Trolley, Ceiling Mount, Table Stand
